

Dueltek's Statement on the RoHS Directive

Background

With its publication in the Official Journal of the European Union, on February 13, 2003, the European Union adopted Directive 2002/95/EC ([download PDF](#)). The Directive restricts and prohibits the use of various heavy metals (lead, mercury, cadmium, and hexavalent chromium), polybrominated biphenyls (PBB) and polybrominated diphenyl ethers (PBDE) in new electrical and electronic equipment put on the market from July 1, 2006.

Dueltek's Environmental Policy

Dueltek Pty. Ltd. (T/A- Dueltek Computer Products) is committed to protecting and enhancing the environment. Environmental protection is integral to Dueltek's continual improvement process, aimed at ensuring we meet the expectations of our customers, employees, and the community in which our products are manufactured, marketed and used.

Commitment to Comply

Dueltek is fully committed to complying with the requirements of all applicable environmental legislation, regulations, including RoHS in our products.

Dueltek Commits to:

- Meet or exceed the compliance requirements of all applicable environmental legislation, regulations, and other voluntary requirements to which we subscribe
- Promote the prevention of pollution
- Continually improve the effectiveness of our environmental management system

Current Status

All Dueltek Brand products are RoHS compliant.

To achieve our objectives fully, Dueltek is working with our vendors & supply chain partners to eliminate lead from all products we sell.

We are also working to adopt industry standard solutions to eliminate the use of lead and other hazardous substances in all products sold in Australia.
