

PRESS RELEASE: 30 March 2010

Dueltek Launch New Wall Plate Mount Cables & Accessories

Designed by Dueltek's own engineers, this new range of Wall Plate Mount Adapter Cables and Accessories will make any cable installation a breeze.

With the flexibility to twist and turn 360 degrees, they have an amazing ability to fit into small compact areas (i.e. Wall Plate Mounting Blocks, thin office dividing walls, etc.).

There are a small amount of other angled cables on the market, but usually only the connector is angled which limits them to specific jobs. The design and versatility of the Dueltek Wall Plate Mount Adapter Cables makes them suitable for even the most compact space or environment.

Available now from Dueltek Distribution:

Visit www.dueltek.com.au to see the entire range of Wall Plate Mount Adapter Cables and Accessories
